In response to the Request For Additional Information dated February 10, 2015, we reviewed our records to determine why the ending report amount for the 2014 October Quarterly report was negative. In checking the files, we found certain items that require us to amend the following reports. The amended reports are attached. With these changes, the 2014 October Quarterly report, as amended, shows a positive cash on hand amount that reconciles with the amount in the bank at that time.
